INTRODUCTORY STATEMENT

(In Millions of Dollars)

FY 1990 <u>Actual</u>	FY 1991 <u>Estimate</u>	FY 1992 <u>Estimate</u>	FY 1993 <u>Estimate</u>
1,850.5	1,890.3	1,894.6	1,739.8

The Operation and Maintenance, Marine Corps appropriation provides the funding for Marine Corps missions, functions, activities, and facilities except for those requirements related to: procurement of major items of equipment and ammunition, military personnel, military family housing, operations and maintenance of the Marine Corps Reserve, and those functions supported by Navy sponsored appropriations.

The funds contained in this appropriation are intended primarily for the support of the Fleet Marine Forces which consist of 188,000 active military and 17,050 civilian personnel in FY 1992 and 182,200 active military and 16,642 civilian personnel in FY 1993. The primary Marine Corps objective is to train and maintain the Fleet Marine Forces at a high level of combat readiness for service with the fleet, ashore, or for such other duties as the President may direct.

The two Fleet Marine Forces supported by this appropriation are composed of Marine Expeditionary Forces (Division/Wing/Service Support Group Task Organizations), including a combination of combat and combat service support organizations and a variety of supporting units. Funds are also provided to support two landing force training commands, Marine detachments afloat, the security forces assigned to naval and other government activities ashore, maritime prepositioning ships, and Norway prepositioning.

Shore facilities receiving funding support from this appropriation are: three major units support bases; two recruit depots; eleven air installations; two logistics bases; one Marine Corps Combat Development Command; one Marine Corps Research, Development and Acquisition Command; one Marine Corps Air-Ground Combat Center; and two landing forces training commands. These facilities are being maintained at standards that will permit effective utilization,

avoid major replacement costs, and allow operation and maintenance on an economical and effective basis.

The individual training of enlisted personnel and officers from basic training to the highest Marine Corps technical training and the advanced training at schools of the other Services and at civilian institutions is supported by funds in this appropriation. Such schooling is designed to produce highly trained and disciplined officers and enlisted personnel for duty with the Fleet Marine Corps, capable of leadership growth as well as effective performance.

This appropriation also supports the Marine Corps supply system. The principal objective of the supply system is to provide Marine activities/units with the proper material and equipment in the quantity, condition, time, and place required. Further, it supports other miscellaneous activities such as special training, second destination transportation of things recruiting, equipment overhaul and repair, and miscellaneous expenses.

All available audit savings have been incorporated into the following budget estimates. Also, included are Defense Management Review Initiatives in the areas of Automated Data Processing (ADP), Commissary and the Defense Business Operating Fund (DBOF).

6. Other Increases		18,607
A. Programmatic Increases	(+18,607)	
		O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

Increase in miscellaneous base operating support to include consumable supplies, safety equipment, maintenance of equipment, and vehicle maintenance and other base service support.	+11,886
Increase reflects the realignment of Federal Employee Compensation Act funding in accordance with actual payments.	+683
Increase reflects a realignment from Training, Medical and other General Personnel Activities for utility rate increases at Marine Corps Air Ground Combat Center, Twentynine Palms.	+417
Increase reflects a realignment from contract support of maintenance of real property at MCAS Kaneohe Bay to in-house labor. (+20 end-strengths).	+842
Conversion of Foreign National Indirect Hire positions to Direct Hire United States positions in accordance with the terms of the Master Labor Contract with the Government of Japan and the U. S. Forces JPL 40.1.	+92
Increase in the Marine workyear support cost is the direct result of redistribution of military personnel.	+1,065

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

Increase reflects a realignment from Central Supply and Maintenance and Administration and Associated Activities, to support the commercial activities program. +422

Funding transferred from the centralized DoD Drug Interdiction and Counter-Drug Activities account. +3,200

7. Other Decreases

-44,332

A. Programmatic Decreases (-44,332)

Functional transfer to the Naval Investigative Service Command (NISCOM) due to an increase in the number of requests placed on the Central Adjudication Facility (CAF) by the Marine Corps. (-2 end-strengths) -64

Recosting of civilian personnel salaries based on the latest available compensation data. -4,526

Reduction in nonrecurring maintenance and repair of Marine Corps real property and minor construction of new facilities/alterations of existing facilities. -3,249

Decrease reflects a realignment to Other Administration for the establishment of the Western and Eastern Area Council Offices. (Includes 2 end-strengths). -282

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

A reevaluation of the civilian workforce results in a workyear adjustment.	-135
Reduction in maintenance of real property contracts at MCAS Kaneohe Bay. Funds realigned to support in-house labor vice contract support.	-842
Decrease in utilities to reflect spot market gas savings.	-140
Decrease reflects a realignment to Central Supply and Maintenance to properly reflect costs associated with Marine Corps Tactical System Support Activities (MCTSSA).	-363
Decrease reflects realignments to Central Supply and Maintenance; Training, Medical and Other General Personnel Activities; and Administration and Associated Activities for utility rates, child care, communications, federal employee compensation act payments, and formal schools training. This will align budgeted funding in accordance with the results of the FY 1991 Apportionment Review. Decreases are in the areas of Marine Air Ground Task Force (MAGTF) exercise support, Fleet Marine Forces (FMF) equipment maintenance, procurement of initial issue expense items and the replenishment/replacement of table of equipment allowance items.	-21,403

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

Decrease reflects a realignment to Central Supply and Maintenance to more accurately reflect costs associated with the M1A1 Tank.	-928
Decrease reflects a realignment of funding to Other Logistics Support for deficiencies in the logistics areas of the Marine Corps, Research, Development, and Acquisition Command (MCRDAC). Decrease is in the area of initial issue expense items.	-4,000
Decrease in Fleet Marine Force support in the areas of equipment maintenance, exercise support, supply support and combat service support.	-8,316
Decrease in local and long distance telephone calls.	-84

B. Reconciliation of Increases and Decreases.

1. FY 1991 Current Estimate \$992,640

2. Pricing Adjustments 64,232

A. FY 1991 Fuel Price Adjustment (+16,090)

B. Annualization of FY 1991 Direct Pay Raises (+2,803)

1) Classified +1,353
2) Wage Board +1,450
3) Foreign National Direct 0

C. FY 1992 Direct Pay Raises (+9,214)

1) Classified +3,783
2) Wage Board +5,431
3) Foreign National Direct 0

D. DBOF Stock Fund Rates (-2,050)

1) Fuel -8,550
2) Non-Fuel +6,500

E. DBOF Industrial Fund Rates (-2,011)

F. FN Indirect (+2,408)
G. Foreign Currency (+19,315)
H. Other Pricing Adjustments (+18,463)

3. Functional Program Transfers -11,745

A. Transfers In (+600)

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

1) Intra-Appropriation	0
2) Inter-Appropriation	+600
Functional transfer from the U.S. Air Force in support of the Ie Jima Auxiliary Airfield, Okinawa, Japan.	
	+600
B. Transfers Out	(-12,345)
1) Intra-Appropriation	-7,929
Transfer reflects the realignment of funding for child development activities and family centers into Budget Activity Eight, Other Personnel Activities.	
	-7,929
2) Inter-Appropriation	-4,416
Functional transfer associated with the consolidation of Service commissary operations under the Defense Commissary Agency (DeCA). (Includes 10 end-strengths). This adjustment is the result of a Defense Management Review Initiative.	
	-4,416
4. Program Increases	9,904
A. Annualization of FY 1991 Increases	(+874)
Annualization of FY 1991 military workyear support costs	+874

O&MMC

OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

B. One Time FY 1992 Costs	(+1,268)
One additional civilian personnel workday.	+1,268
C. Other Program Growth in FY 1992	(+7,762)
Defense Management Review Initiative - Civilianization of military spaces in support functions. (+16 end-strengths).	+512
Increase reflects a realignment from Central Supply and Maintenance in support of physical security equipment.	+21
Increase reflects a realignment from Central Supply and Maintenance in support of the Logistics Application of Automated Marking and Reading Symbols system.	+145
Increase to support the Marine Corps Nonappropriated Fund Audit Service.	+115
Increase in facilities engineering studies and funding to support studies and develop documentation for the acquisition of needed facilities and services through private-sector financing arrangements.	+752
Increase to support the Real Property Maintenance/Management System.	+628
A reevaluation of the civilian workforce results in a workyear adjustment.	+38

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Increase in maintenance support of the Logistics Application of Automated Marking and Reading Symbols equipment.	+15
Increase reflects a realignment from Central Supply and Maintenance and Administration and Associated Activities, to support the commercial activities program.	+10
Funding increase will provide for the necessary support costs associated with unique equipment to support new Marine Corps procurement items.	+738
Increase in Land Prepositioning requirements for Stores Account Code (SAC) 1 Table of Equipment deficiencies.	+78
Increased funding is required for training equipment, supplies and materials associated with Marine corps detachments located throughout the continental United States and the world.	+134
Increase reflects a realignment to this Budget Activity from Central Supply and Maintenance, to move accurately reflect costs associated with the M1A1 Tank.	+975
Increase to support hazardous waste disposal requirements.	+3,214
Increase to support cable plant upgrade.	+337

OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Decrease in civilian personnel end-strength associated with the military workyear reductions. (-54 end-strengths).	-1,768
Decrease in requirements for equipment in support of fire fighting functions.	-234
Decrease in requirements to support the Marine Corps Food Services Management Team.	-3
Decrease in funding to support replacement, renovation, and upgrade of personnel support equipment (\$3,004), and food preparation and serving equipment (\$97).	-3,101
Decrease in funding to support the Marine Corps Food Management Information System.	-12
Decrease in lease of interim relocatable facilities.	-178
Decrease in historic and archeological studies.	-91
Decrease in funding to support implementation of the Marine Corps' portion of the Department of Defense mandated Transportation Operational Personal Property Standard System.	-224
Decrease in commercial activities funding.	-406
Decrease in utilities consumption due to energy conservation efforts.	-868

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Decrease in military personnel support functions to include family service centers; morale, welfare, and recreation services; libraries; laundry and dry cleaning; and religious service support.	-3,890
Conversion of Foreign National Indirect Hire United States positions in accordance with the terms of the Master Labor Contract with the Government of Japan and the U. S. Forces JPL 40.1.	-15
Decrease in utilities to reflect spot market gas savings.	-5
Decrease is a result of a reform of the Davis-Bacon Act which eased the requirement to pay elevated wage rates on government construction contracts.	-1,900
Decrease is the result of force structure reductions. This line item includes reductions for civilian labor, military support costs, maintenance and repair of real property, utilities, and foreign national support.	-27,032
Decrease is the result of efforts to develop standard automated data processing systems. This adjustment is the result of a Defense Management Review Initiative.	-654

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Decrease is the result of consolidation of Section 6 Schools management functions under the Secretary of Defense. This adjustment is the result of a Defense Management Review Initiative.	-35
Decrease reflects a realignment to Central Supply and Maintenance and Training, Medical and Other General Personnel Activities to support commercial activities requirements.	-883
Savings: The Japanese Government, based upon an agreement signed January 14, 1991, will increase it's "Host Nation Support" of U. S. military forces in Japan. The Japanese Government will assume by 1995, in increments, 100 percent of our Japanese worker labor costs and 100 percent of U. S. Forces Japan utilities costs, to include heating fuel, gas, electricity and water-sewerage.	-23,000
Decrease in maintenance and repair of Marine Corps real property and minor construction.	-4,353
Decrease in unit deployment program requirements.	-1,979
Decrease in Maritime Prepositioning Ships (MPS) exercise costs.	-3,173

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Reduction in the incremental costs associated with the operation and maintenance of new items of equipment and related components which are to be delivered to the Operating Forces in FY 1992. -938

Decrease in funding for procurement of initial issue expense items in support of Fleet Marine Forces combat and training operations. -7,794

Funding transferred to the DoD Drug Interdiction and Counter-Drug Activities account. Program justification is included in the DoD Drug Interdiction and Counter-Drug Activities back-up material. -2,600

Decrease in administrative support, consumable supplies, purchased services, materials in support of preservation, packaging and packing, and computer network systems. -3,273

Decrease in supply support affecting Authorized Medical Allowance List/Authorized Dental Allowance List (AMAL/ADAL) short shelf life items, replenishment/replacement of table of equipment (T/E) stock items, repair parts, and consumable for Supported Activities Supply System Management Unit (SMU) operations. -2,411

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Decrease represents a reduction in the scope of exercises associated with the Marine Expeditionary Forces (MEFs) Campaign Plans to include reduced participation in Combined Arms Exercises (CAEs), Marine Corps Mountain Warfare Training Center exercises (MCMWTC), and local and Marine Corps directed exercises. These reductions are necessary due to a reduced force list and a scaled down scheme of maneuver. The reduction is in the specific areas of consumable and transportation of things and personnel. -3,399

Reduction is the result of a one-time increase provided in FY 1991 for environmental efforts. -536

Decrease in administrative support and base service at supporting establishments to include consumable supplies, travel and per diem; military and civilian personnel training; printing and reproduction; and rental; maintenance of office equipment; and vehicle maintenance. -5,412

Decrease in collateral equipment is the result of force structure reductions. -3,000

Decrease in local and long distance calls. -433

\$850,599

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Operating Forces
Budget Activity: 2 - General Purpose Forces

I. Description of Operations Financed. This program package provides for the Operating Forces that constitute the Marine Air-Ground Team and Marine security forces at Naval installations and aboard Naval vessels. This program package includes the following:

a. Land Forces. Encompasses the ground portion of the Fleet Marine Forces and includes those forces in the three Marine Divisions, three Force Service Support Groups, five Helicopter Groups and two Light Antiaircraft Missile Battalions. The forces are located at installations on the East and West coasts of the United States, at bases in the Pacific Ocean Area, and aboard amphibious ships of the United States Navy. The specific missions of the Fleet Marine Forces are: (1) To serve with the fleets in the seizure or defense of advance Naval bases and in the conduct of such land operations as may be essential to the prosecution of a Naval campaign; (2) To participate as directed by the Commandant of the Marine Corps in the development of doctrine, tactics, techniques, and equipment used by landing forces in amphibious operations; (3) To train and equip Marine forces for airborne operations as directed by the Commandant of the Marine Corps; (4) To train the maximum number of personnel to meet requirements for expansion during time of war; and (5) To perform such other duties as may be directed.

b. Naval Forces. Provides Marine forces for duty at sea and ashore for security aboard Naval vessels and Naval stations and provides forces from the Marine Air-Ground Team for participation in exercises as directed by the Joint Chiefs of Staff (JCS). The objectives of the Marine Corps in this area are: (1) Ensure that highly qualified Marines are assigned to Naval security forces; (2) Provide Marine security forces for duty aboard Naval vessels; (3) Provide adequate materiel support for the unique requirements of Marine security forces; (4) Maintain Marine Air and Ground Forces at a state of readiness capable of participating in exercises as directed by the JCS; and (5) Provide materiel support to Marine forces and other allied forces participating in JCS exercises aboard or in the vicinity of Marine Corps installations.

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

c. Tactical Air Forces. Encompasses the Marine Corps tactical air forces that participate as the air component of the Fleet Marine Forces in the seizure and defense of advance Naval bases and for the conduct of such operations as may be essential to the prosecution of the Naval campaign. Tactical Air Forces, components of Marine Corps aviation, are structured to provide a balanced task organization designed to provide fixed wing air support for Marine Corps ground forces. The concept of employment envisions formation of a Marine Air-Ground Task Force (MAGTF) specifically tailored to meet anticipated requirements of the assigned tactical objective, to include offensive air support, anti-air warfare, assault support, air reconnaissance/airborne electronic warfare, and command and control of aircraft and missiles. Inherent in these functions are the tasks which include close air support, interdiction, air superiority and air control. A collateral function of Marine Corps tactical air is to participate as an integral component of Naval aviation in the execution of other Navy functions as the fleet commanders may direct.

The funds provided will finance training and routine operations, the maintenance and repair of organic ground equipment, routine supplies, travel, per diem and emergency leave, transportation of things, automatic data processing and initial purchase as well as replenishment and replacement of both unit and individual equipment. Financing is also provided for the movement of troops to participate in exercises either directed by higher authority or by the Commandant of the Marine Corps.

A. Programmatic Increases	(+516)	

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

Activity Group: Operating Forces
Claimant: United States Marine Corps

Recosting of civilian personnel salaries based on the latest available compensation data.

+38

Increase in the Marine work year support cost is the direct result of redistributions in military personnel.

+478

7. Other Decreases

-46,145

A. Programmatic Decreases

(-46,145)

Decrease reflects realignments to Base Operations Support, Other Personnel Support, Base Communications, Recruit Training, Other Administration, and Training Support for utility rates, child care, communications, federal employee compensation act payments, and formal schools training. This will align budgeted funding in accordance with the results of the FY1991 Apportionment Review. Decreases are in the areas of Marine Air Ground Task Force (MAGTF) exercise support, Fleet Marine Forces (FMF) equipment maintenance, procurement of initial issue expense items and the replenishment/replacement of table of equipment allowance items.

-16,984

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

Activity Group: Operating Forces
Claimant: United States Marine Corps

Decrease reflects a realignment of funds from this program package to Central Supply and Maintenance, Other Logistics Support to more accurately reflect costs associated with the M1A1 Tank.

-928

Decrease is the result of a realignment to Base Operations Support, and Base Communications to cover minimum essential fixed operating costs for the Fleet Marine Forces Atlantic and Pacific. Decreases are in the areas of Marine Air-Ground Task Force exercise support, administrative supplies and purchased services, supply support and combat service support.

-15,917

Decrease reflects a realignment of funding to Other Logistics Support for deficiencies in the logistics areas of the Marine Corps, Research, Development, and Acquisition Command (MCRDAC). Decrease is in the area of initial issue expense items.

-4,000

Decrease in Fleet Marine Force support in the areas of equipment maintenance, exercise support, supply support and combat service support.

-8,316

8. FY 1991 Current Estimate

\$311,377

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Base Operations
Budget Activity: 2 - General Purpose Forces

I. Description of Operations Financed. This program package supports the base operations of Marine Corps Bases at Camp Lejeune, Camp Pendleton, Marine Corps Air-Ground Combat Center, and Camp Butler; and Marine Corps Air Stations/Facilities Cherry Point, Beaufort, New River, El Toro, Tustin, Yuma, Kaneohe Bay, Iwakuni, Futenma, and Camps Smith and Elmore.

Fleet Marine Force ground and supporting units are based at Marine Corps Base, Camp Lejeune; Marine Corps Base, Camp Pendleton; Marine Corps Air-Ground Combat Center, Twentynine Palms; Marine Corps Base, Camp Butler on Okinawa; and the Marine Corps Air Station, Kaneohe Bay. Marine Corps Air stations/facilities will provide base support for the Marine aircraft wings and supporting units.

Base operations funding for these support installations is generally for costs of a recurring nature. The funds provided a station commander must be managed so that installation requirements for operation and maintenance are met in the most economical and effective manner. The installation commander is afforded flexibility in administration within materiel allowances, personnel ceilings, and broad policies established by the Commandant of the Marine Corps.

The operations financed include, in the administrative services category, such function as installation financial and military/civilian manpower management, automated data processing and related systems support, printing and reproduction services, and installations safety and legal services.

The specific services category finances organic supply operations in support of the installations; including shop stores, self-service outlets, audiovisual services, vehicle operation and maintenance, maintenance of materiel, and laundry and dry cleaning services.

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

The community support services category provides for support of living facilities, food services, recreation areas, special services programs, and common use facilities.

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures (including warehouses and storage areas), railroad trackage, roadways, utility plants and distribution systems, water and sewage treatment plants and distribution networks, and activity fire protection and prevention services.

Maintenance and repair of Marine Corps real property, and minor construction were realigned to a new program package, 2MP, in FY 91.

Support of Child Development Centers and Family Service centers was realigned from Base Operations to Training, Medical and Other General Purpose Activities - Other Personnel Support, in FY 92.

I. Description of Operations Financed. This program package operates and maintains all telecommunications facilities and ancillary communications equipment used to support the mission essential requirements of Marine Corps commands which are primarily engaged in providing support to the operating forces of the Marine Corps. This support is provided by six Marine Corps Bases/Camps and nine Marine Corps Air Stations/facilities.

This program package funds the operation and maintenance of base/camp telephone systems, record communications (data card, magnetic tape, teletype), radio, facsimile equipment, long distance toll charges, the Military Affiliated Radio System (MARS) program and the administrative costs associated with message reproduction and distribution. Also provided for are support of public address systems and emergency repair of base/camp telephone cables.

Claimant: United States Marine Corps
Activity Group: Maintenance and Repair of Real Property
Budget Activity: 2 - General Purpose Forces

I. Description of Operations Financed. Maintenance of real property (MRP) includes maintenance and repair and minor construction of facilities. The maintenance and repair program is needed to maintain and repair runways, buildings, utility plants and other infrastructure items. A portion of these funds are used to make repairs required to meet environmental standards. The physical condition of our facilities directly relates to our long term ability to continue our mission. Minor construction is both the building of new facilities and improvements or alterations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modifications of older facilities to meet current standards.

In FY 93, funding to support major repair of real property and minor construction was transferred to the Military Construction appropriation.

I. Description of Operations Financed. Funding of all environmental activities, both centrally and decentrally managed, is financed by this program package. Operations in this package include air, water, and soil pollution abatement; environmental restoration; National Environmental Policy Act compliance; natural, cultural, historic, land, forest, and coastal zone management; and hazardous waste handling and disposal. Also included in this program package are injury compensation payments and procurement of collateral equipment required to initially outfit new military construction projects at Marine Corps bases, posts, and stations.

Activity Group: Supply Depot Operations

Budget Activity: 7 - Central Supply and Maintenance

I. Description of Operations Financed. This program package provides the resources necessary to operate the supply and distribution system and work force that effectively and efficiently receives, stores, maintains and distributes those supplies, equipment, and other expendable materials required to meet the operational needs of the Marine Corps. Retention of a distribution system and work force which is adequate to meet contingencies as well as day-to-day demands require the operation of two supply depots, one on the East Coast, at the Marine Corps Logistics Base, Albany, Georgia, and one on the West coast at the Marine Corps Logistics Base, Barstow, California.

The mission of the supply depots includes the following: the receipt, storage, care-in-storage, inventory, issue, preservation, packaging, packing and shipment of equipment and supplies; the processing, recording the control of materiel request and receipt documents; the scheduling of the movement of materiel including rate verification and the preparation and processing of bills of lading, and other transportation documents and the assembly and disassembly of sets, kits, and chests, collateral materiel and end-item components. Marine Corps Logistics Base, Albany, also provides inventory management and distribution of classified and unclassified Marine Corps publications.

The operations financed under this program package include civilian personnel salaries; travel and training costs for civilian and military personnel; cost of materiel required for packing, preservation, and packaging; collateral materiel; end-item components; items required to assemble sets, kits, and chests; and the services of Depot Maintenance Activity technicians required to inspect, maintain, preserve, and/or prepare for shipment complex tactical equipment.

Activity Group: Inventory Control Point

Budget Activity: 7 - Central Supply and Maintenance

I. Description of Operations Financed: This program package provides the resources necessary to maintain a central inventory management system and work force that effectively procures and manages those supplies, equipment, and other expendable material required to meet the operational need of the Marine Corps. The mission of the Inventory Control Point is to perform weapons systems and equipment support and secondary item management, including requirements determination for assigned material; provide the initial range and depth of repair parts, special tools, test equipment and publications required to support new equipment; exercise technical direction over the primary and specialized direct support stock control elements of the stores distribution system; and world-wide mail order uniform clothing support.

This program package finances inventory control operations at the Marine Corps Logistics Base, Albany, Georgia. Items financed include civilian personnel salaries, travel and training costs of civilian and military personnel, operating supplies and material and costs associated with Marine Corps stocklist publications provided to the operating forces. The Marine Corps has also included the funding for all O&MMC material purchases for the land and maritime prepositioning programs in this package.

I. Description of Operations Financed. This program package funds the transportation of Marine Corps owned materiel and supplies by the most economical mode that will meet in transit time standards in support of the Department of Defense Uniform Materiel Movement and Issue Priority System. All resources in this program are utilized to reimburse industrially funded or commercial transportation carriers for transportation services.

This program finances all costs related to second destination transportation of cargo to the operating forces overseas and within the continental United States, as well as prepositioning of Marine Corps material and equipment to overseas locations. Categories of transportation are: (a) Military Sealift Command for ocean cargo; (b) Inland Transportation by Commercial Carriers for movement between CONUS installations and ports; (c) Military Airlift Command for movement of priority cargo in support of Fleet Marine Force units; and (d) Military Traffic Management Command and commercial sources for port handling of ocean cargo.

I. Description of Operations Financed. This program package provides the resources necessary for overall weapons system management and logistics support required to meet the operational needs of the Marine Corps. This specifically includes overall management of weapon systems/equipment support through the total life cycle; maintenance of service-wide stores and allotment accounting systems; technical support of weapon system acquisition; monitoring quality assurance programs; implementation of configuration management program; development of the Marine Corps Standard Supply System (M3S); implementation of total service-wide provisioning; and research, design and development of Marine Corps uniforms and specialized dress requirements.

This program package finances weapons system management and logistics support operations at the Marine Corps Logistics Base, Albany, Georgia. Items financed include civilian-personnel-salaries, travel and training costs of the weapons system management; supplies and materiel costs associated with automatic data processing and uniform clothing functions.

I. Description of Operations Financed. This program package comprises those support functions which (1) are best managed and funded on a centralized basis and (2) consist of either (a) mandatory/unavoidable costs or (b) essential technical support to the Fleet Marine Forces. The major objectives of this program package are to:

- a. Provide technical support required by the operating forces on complex weapons and support equipment systems.
- b. Support Marine Corps-wide programs which cannot be managed effectively in a decentralized manner.

This program package supports the Fleet Marine Forces and supporting installations in such areas as contract technical services, renovation and printing and publication costs.

Budget Activity: 7 - Central Supply and Maintenance

I. Description of Operations Financed. This program package funds the depot maintenance (major repair/rebuild) of Marine Corps ground equipment (less Marine Corps Reserve equipment funded in the Operation and Maintenance, Marine Corps Reserve appropriation). Repair/rebuild is accomplished on a scheduled basis to maintain the materiel readiness of the equipment inventory necessary to support the operational needs to the Fleet Marine Forces. Items programmed for repair are screened to ensure that a valid stock requirement exists and that the repair or rebuild of the equipment is the most cost effective means of satisfying the requirement. This program is closely coordinated with the Procurement, Marine Corps appropriation to ensure that the combined repair/procurement program provides a balanced level of attainment of inventory objectives for major equipment. Thus the specified items to be rebuilt, both principal end items and components, are determined by a process which utilizes cost-benefit considerations as a prime factor. The rebuild costs for each item are updated annually on the basis of current applicable cost factors at the performing activities.

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Subsistence Purchases
Budget Activity: 7 - Central Supply & Maintenance

I. Description of Operations Financed. The funds requested are to provide for rations furnished to eligible military personnel when they do not receive a cash allowance for subsistence (10 U.S.C.(6081) (a)). It also provides for the new or improved subsistence items being introduced into the military supply system, losses of material due to spoilage, and flight meals under 10 U.S.C. 6085. Beginning in FY 1991 Subsistence in Kind will be funded in the Operation and Maintenance Appropriation, Marine Corps. The fund requirement is based on the number of rations to be furnished to military personnel entitled to be subsisted in Marine Corps messes. The ration rates are based on the Basic Daily Food Allowance escalated to account for inflation.

I. Description of Operations Financed. This program package supports the base operations of Marine Corps Logistics Base, Albany, Georgia and Marine Corps Logistics Base, Barstow, California. At these logistics bases this program provides essential administrative and staff functions such as office services, motor transport operations, and support of real property, utilities operations, minor construction, and other engineering support.

More specifically, the operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, automated data processing and related systems support, printing and reproduction services, and installations safety and legal services.

The specific services category finances organic supply operations in support of the installations; including shop stores, self-service outlets, audiovisual services, transportation operation and maintenance, maintenance of materiel, and laundry and dry cleaning services.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs, and common use facilities.

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures (including warehouses and storage areas), railroad trackage, roadways, utility plants and distribution systems, water and sewage treatment plants and distribution networks, and activity fire protection and prevention services.

O&MMC

I. Description of Operations Financed: This program operates and maintains all telecommunications facilities and ancillary communications equipment used to support the mission essential requirements of Marine Corps commands which are primarily engaged in providing logistics support. This support is provided by the Marine Corps Logistics Base, Albany, Georgia, and the Marine Corps Logistics Base, Barstow, California.

This program package finances the operation and maintenance of base telephone systems, record communications (data card, magnetic tape, teletype), radio and facsimile equipment, centrally managed leased lines, long distance toll charges, the Military Affiliated Radio system (MARS) program and the administrative costs associated with message reproduction and distribution. Also provided for are support of public address systems, and emergency repair of base telephone cables.

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Maintenance and Repair of Real Property
Budget Activity: 7 - Central Supply and Maintenance

I. Description of Operations Financed. Maintenance of Real Property (MRP) includes maintenance and repair and minor construction of facilities. The maintenance and repair program is needed to maintain and repair runways, buildings, utility plants and other infrastructure items. A portion of these funds are used to make repairs required to meet environmental standards. The physical condition of our facilities directly relates to our long term ability to continue our mission. Minor construction is both the building of new facilities and improvements or alterations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modifications of older facilities to meet current standards.

In FY93, funding to support major repair of real property and minor construction was transferred to the Military Construction appropriation.

I. Description of Operations Financed. Funding of all environmental activities, both centrally and decentrally managed, is financed by this program package. Operations in this package include air, water, and soil pollution abatement; environmental restoration; National Environmental Policy Act compliance; natural, cultural, historic, land, forest, and coastal zone management; and hazardous waste handling and disposal. Also included in this program package are injury compensation payments and procurement of collateral equipment required to initially outfit new military construction projects at Marine Corps bases, posts, and stations.

Increase reflects a realignment from Operating Forces to Base Communications to align budgeted funding in accordance with the results of the FY 1991 Apportionment review.	+14
Increase reflects realignment from Operating Forces in support of utilities. This will align budgeted funding in accordance with the results of the FY 1991 Apportionment review.	+1,909
Increase is the result of a realignment at Marine Corps Recruit Depot, Parris Island, from Recruit Training and Special Skills in support of motor transportation requirements, utility rate increases and reductions in instructional materials.	+123
Increase reflects a realignment from Base Operations - Central Supply and Maintenance, to support the commercial activities program.	+39
Increase represents a transfer from the Department of Defense (DOD) centralized account in support of the counter-narcotics program.	+150
Increase in base service support functions to include vehicle maintenance, and audiovisual supplies and equipment.	+149

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
ADDENDUM TO EXHIBIT OP-5

Increase reflects a realignment of funds from Central Supply and Maintenance, Equipment Maintenance and Supply Depot Operations to more accurately reflect costs associated with the M1A1 Tank.

+940

7. Other Decreases

-4,340

A. Programmatic Decreases:

(-4,340)

Functional transfer to the Naval Investigative Service Command (NISCOC) due to an increase in the number of requests placed on the Central Adjudication Facility (CAF) by the Marine Corps.

-67

Decrease in recruit loads from 9,832 to 8,791 will result in decreased support costs. (\$850 X 1,041)

-885

Decrease reflects a realignment to Base Operations for utility rate increases at Marine Corps Air Ground Combat Center, (MCAGCC) Twentynine Palms, CA. Reduction is in the areas of Temporary Additional Duty (TAD), training, and purchased services.

-417

Decrease reflects a realignment to Other Administration for the establishment of the Western and Eastern Area Council Offices (Includes -1 E/S)

-12

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps

Activity Group: Recruit Training

Budget Activity: 8-Training, Medical and Other General Personnel Activities

I. Narrative Description. The transition from civilian life to duties as a Marine occurs as a result of recruit training for new enlistees conducted at one of the two Marine Corps Recruit Depots, located at Parris Island, South Carolina and at San Diego, California. This intense period of training is designed to prepare the new Marine for assignment to units of the Fleet Marine Force, to major posts and stations, to duty at sea aboard vessels of the U.S. Navy, and to specialized skill training prior to assignment to a unit. During recruit training, the Marine is taught basic military skills, and develops confidence in himself and in members of his unit, while being closely supervised by specially skilled, highly trained and motivated professional Marines. The ultimate objective of this training is to produce a Marine that can assimilate well into a unit, and in time of emergency, sustain himself on the battlefield. Because many Marines graduating from recruit training are assigned to formal schools for specialized skill training in a military occupational specialty (MOS), identification of these Marines is an ancillary objective of recruit training.

Description of Operations Financed. To attain the objectives of recruit training and produce the quality Marine ready for initial assignment, the two Marine Corps Recruit Depots must finance the various costs for this training. These costs include individual equipments requirements, the operation and maintenance of support equipment, administrative functions and routine supplies. Specific examples of recruit training costs financed by recruit accession and processing, uniform clothing alterations, marksmanship training and administration, garrison and field training support, transportation costs associated with recruit training, civilian salaries, etc.

I. Narrative Description. Upon completion of Officer Acquisition Training or Recruit Training, the Marine is assigned to courses of instruction to acquire the requisite skills necessary to meet the minimum requirements of a Military Occupational Specialty (MOS). In the case of the officer, this involves completion of the Basic School at the Marine Corps Combat Development Command (MCCDC), Quantico, Virginia, and the assignment to an MOS qualifying course such as the Infantry Officer Course or the Communications Officer School. The enlisted Marine undergoes specialized skill training at Marine Corps installations or at schools of other services, depending on his designated MOS. The majority of specialized skill training is provided at subsequent career points to qualify Marines for occupational specialties involving higher levels of proficiency or responsibilities and also to develop the functional skills required within specific job assignments. To ensure an adequate input of qualified personnel for assignment to Marine Corps commands, approximately 6,800 officer and 79,500 enlisted regular and reserve Marines participate in this category of training annually.

Description of Operations Financed. The support rendered to this program package includes the direct support of specialized skill training at seven Marine Corps commands. Specific examples of costs financed under this program package include salaries of civilian personnel, training, administrative support, travel and per diem, etc.

Budget Activity: 8-Training, Medical, and Other General Personnel Activities

I. Narrative Description. This program package encompasses the training and education program available to career Marines which enhance their overall professional development and qualify them for increased command and staff responsibilities. Included in this category are programs for officers and Staff Non-Commissioned Officers (SNCO) available within the Marine Corps, at schools of other services, and at civilian institutions. The Marine Corps Combat Development Command, Quantico, Virginia is the field activity with primary responsibility for professional development education within the Marine Corps. The professional development schools located at this installation are the Command and Staff College, Amphibious Warfare School, and SNCO Academy. The courses taught at the Command and Staff College and the Amphibious Warfare School are designed primarily for majors and captains, respectively. These courses emphasize the Marine Air-Ground team in amphibious operations to prepare the student for command and staff assignments at the Division/Wing, Regiment/Group and Battalion/Squadron levels, as well as for assignment to departmental, joint or combined staffs. The overall objective of the instruction is to present the doctrine, tactics and techniques of amphibious warfare with a view toward potential employment and responsiveness of amphibious forces in support of changing national strategy.

This program package also provides support to Marines undergoing professional development education at schools of other services and at civilian institutions. With regard to the latter, the students study a variety of academic disciplines to qualify them for staff assignments that require expertise in technical or scientific areas.

Description of Operations Financed. The operational support rendered to this program package includes the direct requirements of the professional development education schools at the Marine Corps Combat Development Command; various costs of Marines assigned to civilian institutions; and administrative support for Marines attending other Service

schools. Specific examples of financing in this program package include program materials and supplies; professional books and literature; computer assisted instruction; travel and per diem; tuition, book and fee charges at civilian institutions; civilian salaries; administrative expenses to include material, supplies and maintenance of office machines; and purchases of minor property.

I. Narrative Description. Candidates for appointment as commissioned officers of the Marine Corps and Marine Corps Reserve undergo intense courses of instruction prior to actual commissioning. This program package includes four programs that input officer candidates for screening at the Officer Candidate School, Marine Corps Combat Development Command, (MCCDC), Quantico, Virginia, and a fifth, the Marine Enlisted Commissioning Education Program, which is conducted at civilian education institutions. The program at MCCDC are the Platoon Leaders Class; Officers Candidate Course; Naval Reserve Officer Training Course (Marine Option); and the Enlisted Commissioning Program. The screening process involves instruction in leadership, basic military subjects, history and traditions, and physical conditioning. Because the program of instruction is presented at a central location, Marine Corps Combat Development Command, Quantico, Virginia, standard evaluation techniques are applied to all candidates.

Description of Operations Financed. Approximately 1,800 officer candidates will be screened in FY 1992/93 under this program. To provide adequate support to this vital program, operation and maintenance funds are required for maintenance of individual and organizational equipment, and maintenance and replacement of classroom minor property training aids, printing and reproduction of individual training materiel and schedules, candidate processing and general administrative support, salaries of civilian personnel in direct support of this program, and travel and per diem.

EXH.BIT OP-5

Claimant: United States Marine Corps
Activity Group: Flight Training
Budget Activity: 8-Training, Medical and (ther General Personnel Activities

I. Narrative Description. Marine Corps personnel assigned to duty under instruction prior to qualification as Naval Aviators or Naval Flight Officers are trained either at U.S. Naval Air Station, Pensacola, Florida or U.S. Naval Air Station, Corpus Christi, Texas. The majority of flight training costs are incurred by the U.S. Navy. The Marine Corps provides limited operation and maintenance support for its personnel at these installations.

Description of Operations Financed. The Marine Corps has small administrative detachments at these Naval Air Stations providing support to Marine students undergoing instructions. This program package provides for routine administrative services, maintenance of office machines and other minor property and for limited travel and per diem. The actual cost of "hands-on, hard skill" training is incurred by the Navy.

I. Narrative Description. This program package includes operations of the Marine Corps Institute located at the Marine Barracks, 8th and I Streets, S.E., Washington, D.C.; support of the Extension School at Marine Corps Combat Development Command (MCCDC), Quantico, Virginia; and centrally managed support of formal schools training which provides for the post-recruit training of all Marines in a variety of skills and specialties. This post-recruit training varies from Military Occupational Skill (MOS) training to short courses on leadership, management, and drug and alcohol abuse control. Training for Marine students takes place at both Marine Corps activities and other Service schools. Additionally, training is provided at civilian business or educational institutions. The mission of the Marine Corps Institute is to prepare and administer correspondence courses designed to increase the general and technical proficiency of Marines, and prepare, distribute, evaluate and support essential subjects training. The Extension School offers professional military education to an unlimited number of officer and senior enlisted personnel.

Description of Operations Financed. This program package provides for costs associated with travel and per diem for those Marines attending Service and civilian schools away from their permanent duty stations. Also included are costs of training support equipment, audiovisual aids, computer-assisted training programs, and direct administrative support, minor training devices and factory training. These direct administrative costs include such items as the pay for civilian education specialists, printing and reproduction of course and test materials, text books, etc., in support of the Marine Corps Institute. Annually, the Marine Corps Institute provides approximately 350,000 answer sheets, and 6,000 Performance Oriented Training packages to company/battery/squadron size units. The Extension School administers 15,000 students in 50 courses. Of these, approximately 11,700 are active duty and 1,000 are reservists, and nearly 2,300 are other Services students.

I. Narrative Description. This program package provides resources and support to the total force procurement effort to enable enlisted and officer procurement personnel to achieve predetermined force levels in both quality and quantity accessions. The Marine Corps total forces recruiting program tasks individual recruiters to procure accessions for both the Regular and Reserve Forces. Officers procurement is the primary function of officer selection offices.

A major objective of the Marine Corps is to provide quality recruits that will facilitate reduced first term non-expiration of active military service attrition and increase combat readiness of the Fleet Marine Force.

Description of Operations Financed. The operations financed under this program package include: expenses incurred in developing a proficient military recruiting force, the salaries of civilian personnel associated with recruiting, the purchase and maintenance of minor property, personnel support and administrative supplies, communications, travel per diem, leasing of recruiting vehicles, recruiter out-of-pocket expenses, and applicant processing costs.

Budget Activity: 8-Training, Medical and Other General Personnel Activities

I. Narrative Description. This program package provides advertising support to procurement and career planning efforts while generating qualified nonprior service leads and maintaining target group awareness of Marine Corps opportunities at the desired level of response. Additionally, advertising encompasses goals to facilitate and encourage face-to-face contact between the potential applicant and the procurement force. The Marine Corps advertising program is structured to utilize all conventional media in delivering Marine Corps impressions, with direct mail and magazines used primarily as lead generating media.

Description of Operations Financed. Marine Corps recruitment advertising includes: support for all officer, enlisted, Marine-option NROTC, retention and market analysis programs. Purchased with these funds are media (magazines, broadcast, outdoor, etc.), production (creative, photography, art work), and market analysis included in the advertising campaign.

Subject: 8-Training, Medical

I. Narrative Description. The Marine Corps offers its personnel the opportunity to enhance their career through education programs. This program includes the Basic Skills Education Program (BSEP) an on-duty program, which is designed to remedy deficiencies in reading, mathematics, and the language arts. Other levels of education included in this program package are high school completion and college level undergraduate and graduate courses.

Description of Operations Financed. Resources associated with this program package finance 100 percent of the total cost of the BSEP and off-duty high school courses. The other programs described above are included in a grouping called "Voluntary Off-Duty Education". In accordance with the General Provisions of the Appropriation Act, the Marine Corps pays up to 75 percent of the tuition charges of educational institutions for off-duty training of military personnel except with regard to such charges for enlisted personnel in the pay grade of E-5 or higher with less than 14 years of service, for which payment of 90 percent may be made.

Budget Activity: 8-Training, Medical and other General Personnel Activities

I. Narrative Description. The enactment of Public Law 88-647, and modification in Section 2031, Title, United States Code, authorized the Service Secretaries to commission Junior Reserve Officer Training Corps units at secondary schools that meet established criteria. Under the authority of the section, a maximum of 1,200 units were authorized. Subsequently, Public Law 94-361 authorized the Commandant of the Marine Corps to establish 80 Marine Corps JROTC units throughout the United States. The mission of these units is to develop informed citizens, strengthen character by the teaching of discipline, develop an understanding of the military responsibility of each citizen, and promote an appreciation of and motivation for careers in the military.

Description of Operations Financed. The primary expense associated with this program package is for the pro-rata share of the costs for military instructors who are responsible for the day-to-day operation of the Marine Corps JROTC units. Retired members employed as instructors are entitled to receive their retainer or retired pay and an additional amount of not more than the difference between their retired pay and the active duty pay and allowance which they would receive if ordered to active duty. One-half of the additional amount is paid to the institution concerned from appropriated funds which are budgeted in this program package. Also it provides for annual orientation visits by these units to Marine Corps installations, for administrative supplies, tests, training aids, etc.

I. Narrative Description. This program package primarily provides Operation and Maintenance (O&M) support for Marine prisoners confined at the Army Disciplinary Command, Fort Leavenworth, Kansas, support of the Marine Band located at the Marine Barracks, 8th and I Streets, Washington, D.C., child care and child development, and Family Service Centers.

Description of Operations Financed. This program package provides for the reimbursement to the United States Army for personnel support costs incurred related to the confinement and administration of Marine Corps prisoners. Marine prisoners represent above 10 percent of the prisoner population and the Marine Corps reimburses the Army for its pro rate share of the operating costs which include civilian salaries, meals, supplies and equipment, health and comfort items, medical/dental costs, etc. It further provides support for the "President's Own", the Marine Band, to include such items as: travel, replacing and upgrading of musical instruments, recording equipment, supplies and materials and printing services. Also include is reimbursement to the Veterans Administration for the Marine Corps' share of the cost of the Veterans Educational Assistance Program. It provides support for child care and family service centers to include supplies, equipment, and purchased services.

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Base Operations
Budget Activity: 8 - Training, Medical and Other General Purpose Activities

I. Description of Operations Financed. This program package supports the training base operations of Marine Corps Recruit Depot, Parris Island, South Carolina; Marine Corps Recruit Depot, San Diego, California; Marine Corps Combat Development Command, Quantico, Virginia; air facility operations of the Marine Corps Combat Development Command, Quantico, Virginia, which provides for the support of the military personnel assigned to Headquarters, U.S. Marine Corps and Helicopter Squadron One (White House Support) respectively, and the base operations functions of Marine Barracks, 8th and I Streets, S. E., Washington, D.C. Base operations funding is generally for costs of a recurring nature. The funds provided a station commander must be managed so that installations requirements for operation maintenance are met in the most economical and effective manner. The installation commander is afforded flexibility in administration within materiel allowances, personnel ceilings, and broad policies established by the Commandant of the Marine Corps. All operations are planned to provide only essential facilities required for recruit, specialized, and professional training. Levels of supply are within allowances prescribed by the Commandant of the Marine Corps.

The operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, automated data processing and related systems support, printing and reproduction services, and installations safety and legal services.

The specific services category finances organic supply operations in support of the installations; including shop stores, self-service outlets, audiovisual services, vehicle operation and maintenance, maintenance of materiel, and laundry and dry cleaning services.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs, and common use facilities.

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures (including warehouses and storage areas), railroad trackage, roadways, utility plants and distribution systems, water and sewage treatment plants and distribution networks, and activity fire protection and prevention services.

Maintenance and repair of Marine Corps real property, and minor construction were realigned to a new program package, 8MP, in FY 91.

Support of Child Development Centers and Family Service Centers was realigned from Base Operations to Training, Medical and Other General Purpose Activities - Other Personnel Support, in FY 92.

I. Description of Operations Financed. This program operates and maintains all telecommunications facilities and ancillary communications equipment used to support the mission essential requirements of Marine Corps commands which are primarily engaged in providing training support. The Marine Corps training commands are the Marine Corps Combat Development Center, Quantico, Virginia; Marine Corps Recruit Depot, San Diego, California; Marine Corps Recruit Depot, Parris Island, South Carolina; and the Marine Barracks, 8th and I Streets, S.E., Washington, D.C.

This program package finances the operation and maintenance of base/depot telephone systems, record communications (data card, magnetic tape, teletype), radio and facsimile equipment, long distance toll charges, the Military Affiliated Radio System (MARS) program and the administrative costs associated with message reproduction and distribution. Also provided for are support of public address systems, and emergency repair of base/depot telephone cables.

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Maintenance and Repair of Real Property
Budget Activity: 8 - Training, Medical and other General Personnel Activities

I. Description of Operations Financed. Maintenance of Real Property (MRP) includes maintenance and repair and minor construction of facilities. The maintenance and repair program is needed to maintain and repair runways, buildings, utility plants and other infrastructure items. A portion of these funds are used to make repairs required to meet environmental standards. The physical condition of our facilities directly relates to our long term ability to continue our mission. Minor construction is both the building of new facilities and improvements or alterations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modifications of older facilities to meet current standards.

In FY93, funding to support major repair of real property and minor construction was transferred to the Military Construction appropriation.

I. Description of Operations Financed. Funding of all environmental activities, both centrally and decentrally managed, is financed by this program package. Operations in this package include air, water, and soil pollution abatement; environmental restoration; National Environmental Policy Act compliance; natural, cultural, historic, land, forest, and coastal zone management; and hazardous waste handling and disposal. Also included in this program package are injury compensation payments and procurement of collateral equipment required to initially outfit new military construction projects at Marine Corps bases, posts, and stations.

4. Program Increases

A. Annualization of FY 1991 Increases (+47)

Annualization of FY 1991 Marine work year support cost is the direct result of redistributions in military personnel. +47

B. One Time FY 1992 Costs (+237)

One additional civilian personnel workday. +237

C. Other Program Growth in FY 1992 (+7,135)

Increase to support development and entry of Time-Phased Force Deployment Data (TPFDD) associated with the Marine Air Ground Task Force II (MAGTF II) system. This system is mandated by the Joint Chiefs of Staff (JCS) and feeds into the Joint Deployment System (JDS). This increase is offset by a reduction in Automated Data Processing (ADP) associated with the development of standard ADP systems which is the result of implementing Defense Management Review Initiatives. +16

Funding increase will provide for the necessary support costs associated with unique equipment to support new Marine Corps procurement items. +146

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

A reevaluation of the civilian workforce results in a workyear adjustment.	+78
Increase in headquarters automated data processing hardware, maintenance, related software, supplies, services, and postal requirements.	+642
Increase to integrate the information systems used by the Human Resources Division (MH) with the Joint Uniform Military Pay Systems/Manpower Management System (JUMPS/MMS) data base. This increase includes funds for Automated Data Processing (ADP) associated with the development of standard ADP systems which is the result of implementing Defense Management Review Initiatives.	+329
Increase in systems maintenance for Class I and small systems to ensure reliable operation. Maintenance provides for systems modifications to maintain communications in the changing environment and debugging to fix problems. This increase includes funds for Automated Data Processing (ADP) associated with the development of standard ADP systems which is the result of implementing Defense Management Review Initiatives.	+1,957

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Increase for computer software support related to the Miniaturization and Automation of Personnel Records (MAPR). This program is directly associated with the overall management of the Official Military Personnel Files (OMPFs). This increase includes funds for Automated Data Processing (ADP) associated with the development of standard ADP systems which is the result of implementing Defense Management Review Initiatives.

+266

Program increase for development of current software and implementation of proprietary system software products to support the End User Computing/Local Area Network Program and use of proprietary system software to remotely perform network management, regional application processing, and system software report from a single location. This increase is offset by a reduction in Automated Data Processing (ADP) associated with the development of standard ADP systems which is the result of implementing Defense Management Review Initiatives.

+2,296

Program increase to support ADP systems which will accommodate the process of changing from manual to automated methods at the Marine Corps Central Design and Programming Activity, Quantico, Virginia. This increase is offset by a reduction in ADP associated with the development of standard ADP systems, which is the result of implementing Defense Management Review Initiatives.

+78

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Program increase is required to support critical travel requirements, purchase of consumable supplies, installation and maintenance of computer terminals, software and word processing equipment.	+329
Increase for system software to reflect the consolidation of ADP design and operations centers directed under a Defense Management Review Initiative. The Marine Corps will implement over a two and one-half year period, a three phase consolidation plan which will take advantage of advances in computer and communications technology to achieve required reductions for consolidation.	+735
Increase in maintenance support of the Logistics Application of Automated Marking and Reading Symbols equipment.	+2
Increase in funding to support implementation of the Marine Corps' portion of the Department of Defense mandated Transportation Operational Personal Property Standard System.	+11
Increase to support rate increases and increased usage of communications for computer and facsimile machines.	+174
Increase reflects a one-time realignment to Base Operations - General Purpose Forces, to support the commercial activities program.	+67

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Increase in funding for environmental efforts.	+9	
5. Program Decreases		-8,707
A. Annualization of FY 1991 Decreases	(0)	
B. One Time FY 1992 Costs	(0)	
C. Other Program Decreases in FY 1992	(-8,707)	
Decrease in Contracted Advisory and Assistance Services resulting from implementation of Defense Management Review Initiatives.	-53	
Decrease in civilian personnel end strength and associated support costs is the direct result of the military workyear reductions.	-3,916	
Reduction in Automated Data Processing (ADP) associated with the development of standard ADP systems is the result of implementing Defense Management Review Initiatives.	-536	
Decrease in mainframe software enhancements to the U.S. Navy Management Information System (MIS) and Aviation Maintenance Material Management/Naval Flight Record Subsystem (3M/NAVFLIRS), as directed by the Office of the Chief of Naval Operations (OPNAV). These systems are used as official data on all aircraft, simulators, aircrew, and aircrew training. This decrease includes a reduction in Automated Data Processing (ADP) associated with the development of standard ADP systems which is the result of implementing Defense Management Review Initiatives.	-3	

O&MMC

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Reduction in Automated Data Processing (ADP) associated with the development of standard ADP systems is the result of implementing Defense Management Review Initiatives. This reduction is offset by an increase for resystemization, design and engineering of new systems to interface with the Real Time Finance and Manpower Management Information System database.

-919

Decrease reflects a realignment of environmental management funding.

-2

Reduction in Automated Data Processing (ADP) associated with the development of standard ADP systems is the result of implementing Defense Management Review Initiatives. This reduction is offset by an increase to continue Realtime Automated Personnel Identification System (RAPIDS) phase I operations and associated Defense Eligibility Enrollment System (DEERS) on-line inquiry capability to Fleet Marine Force Commanders.

-779

Decrease in funding to support replacement, renovation and upgrade of personnel support equipment (\$24), and food preparation and serving equipment (\$7).

-31

Decrease in requirement for funding to support conversions associated with the commercial activities programs.

-64

O&MMC

541

DEPARTMENT OF THE NAVY

Activity Group: Other Administration
Budget Activity: 9 - Administration and Associated Activities

I. Description of Operations Financed. The primary activities included in this program package encompass the Marine Corps Personnel and Support Activity (MCPASA) and the Marine Corps Finance Center (MCFC). Functions performed by MCPASA primarily support the entire Marine Corps such as Marine Corps-wide personnel detailing, assignment, promotion, separation and retirement, performance reporting, recruiting, education and training, and record maintenance and services. The MCFC is structured to provide sustained disbursing services for all active duty, reserve, retired and survivor annuitants. The Marine Corps Finance Center was consolidated into the Defense Finance and Accounting Center as a result of a Defense Management Review Decision as of January 1991. Inherent in this service is the requisite automatic data processing functions associated with disbursing. Other activities included are Marine Corps History and Museums, Public Affairs, the Marine Security Guard Battalion (State Department), the military personnel assigned to Helicopter Squadron One located at Marine Corps Air Facility, Quantico, Virginia for operation and maintenance of helicopters for White House support.

This program finances the administration of missions, functions, and worldwide operations of the Marine Corps. Cost of operations includes civilian personnel salaries, automatic data processing, printing and reproduction, expense of travel for military and civilian personnel, maintenance of office equipment, and supplies. Further, it provides for personnel type services on a Marine Corps-wide basis and miscellaneous support not provided elsewhere for items such as issue athletic/recreational equipment, miscellaneous temporary additional duty, postal requirements, and reimbursement to the Department of Labor for employee compensation costs.

I. Description of Operations Financed. This program package finances base operations type support of Headquarters Battalion, Headquarters, U. S. Marine Corps and the administrative support of the military personnel assigned to Headquarters, U. S. Marine Corps.

The operations financed include, in the administrative services category, such functions as installation financial and military/civilian manpower management, printing and reproduction services, and installations safety and legal services.

The specific services category finances organic supply operations in support of the installations, including vehicle operation and maintenance.

The community support services category provides for support of living facilities, food services, recreation areas, special services programs, and common use facilities.

The facility services category largely makes up the remainder of the functions provided by this program package. The category consists of the maintenance and repair, minor construction, utilities operations, and other engineering support necessary to operate and maintain the buildings and related structures and roadways.

Maintenance and repair of Marine Corps real property, and minor construction were realigned to a new program package, 9MP, in FY 91.

Support of Child Development Centers and Family Service Centers was realigned from Base Operations to Training, Medical and Other General Purpose Activities - Other Personnel Support, in FY 92.

O&MMC

629

DEPARTMENT OF THE NAVY
OPERATION & MAINTENANCE, MARINE CORPS
EXHIBIT OP-5

Claimant: United States Marine Corps
Activity Group: Maintenance and Repair of Real Property
Budget Activity: 9 - Administration and Associated Activities

I. Description of Operations Financed. Maintenance of Real Property (MRP) includes maintenance and repair and minor construction of facilities. The maintenance and repair program is needed to maintain and repair runways, buildings, utility plants and other infrastructure items. A portion of these funds are used to make repairs required to meet environmental standards. The physical condition of our facilities directly relates to our long term ability to continue our mission. Minor construction is both the building of new facilities and improvements or alterations of existing facilities. Minor construction projects are a result of essential new missions, introduction of new weapons and equipment, changes in facilities use and modification of older facilities to meet current standards.

In FY 93, funding to support major repair of real property and minor construction was transferred to the Military Construction appropriation.

II. Financial Summary (Dollars in Thousands).

 Budget Activity: 9 - Administration and Associated Activities

I. Description of Operations Financed. Funding of all environmental activities, both centrally and decentrally managed, is financed by this program package. Operations in this package include air, water, and soil pollution abatement; environmental restoration; National Environmental Policy Act compliance; natural, cultural, historic, land, forest, and coastal zone management; and hazardous waste handling and disposal. Also included in this program package are injury compensation payments and procurement of collateral equipment required to initially outfit new military construction projects at Marine Corps bases, posts and stations.

II. Financial Summary (Dollars in Thousands).
